PUBLIC HEALTH DEPARTMENT

Officers and Staff

Medical Officer of Health:

A. C. Ross, M.B., Ch.B., D.P.H.

Surveyor and Chief Public Health Inspector:

H. W. Sillifant, C.Eng., M.I.Mun.E., F.R.S.H., M.A.P.H.I., M.I.P.H.E.

Additional Public Health Inspector:

N. J. Adams, M.A.P.H.I.

Clerk:

Mrs. B. M. Laughton

To the Chairman and Members of
Lutterworth Rural District Council

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in presenting the Annual Report of the District for the year 1972.

The relevant vital statistics are given elsewhere in the Report.

With regard to infectious diseases, the total figure for notifiable infectious diseases during the year was 72; this included 10 notifications of infective hepatitis, 11 of scarlet fever and 43 of measles.

I wish to thank Mr. Sillifant and the staff of the Public Health Department for their help during the year, and also the Public Health Committee for their support and assistance.

I am, Mr. Chairman, Ladies and Gentlemen,
Yours obediently,

Andrew C. Ross.

Medical Officer of Health.

VITAL STATISTICS

BIRTHS

LIVE BIRTHS

| | Males | Females | Totals |
|--------------|-------|---------|--------|
| Legitimate | 116 | 110 | 226 |
| Illegitimate | 6 | 9 | 15 |
| TOTALS: | 122 | 119 | 241 |

LIVE BIRTH RATE (crude rate)

15.2 per 1,000 population

| 1951 | 1952 | 1953 | 1954 | 1955 | 1956 | 1957 | 1958 | 1959 | 1960 | 1961 |
|------|------|------|------|------|------|------|------|------|------|------|
| 17.0 | 16.2 | 16.6 | 16.0 | 13.8 | 14.2 | 14.7 | 17.1 | 16.1 | 15.5 | 17.1 |

| 1962 | 1963 | 1964 | 1965 | 1966 | 1967 | 1968 | 1969 | 1970 | 1971 | 1972 |
|------|------|------|------|------|------|------|------|------|------|------|
| 17.6 | 17.7 | 16.7 | 18.5 | 16.8 | 15.2 | 16.9 | 15.8 | 16.4 | 18.2 | 15.2 |

The live Birth Rate is 15.2 per 1,000 of population. The figure for England and Wales is 14.8 per 1,000 total population. *The Area Comparability Factor is .98, and the Local Adjusted Rate is 14.9.

*The area comparability factors for use with crude birth and death rates contain adjustments for boundary changes and make allowances for the way in which the sex and age distribution of the local population differs from that from England and Wales as a whole. In addition, the death area comparability factors have been adjusted specifically to take account of the presence of any residential institutions in each area. When local crude birth and death rates are multiplied by the appropriate area comparability factor, they are comparable with the crude rate for England and Wales, or with the corresponding adjusted rate for any area for that year.

DEATHS

Deaths from all Causes

| Males | Females | Total |
|-------|---------|-------|
| 82 | 71 | 153 |

CRUDE DEATH RATE

9.7 per 1,000 estimated population.

| 1951 | 1952 | 1953 | 1954 | 1955 | 1956 | 1957 | 1958 | 1959 | 1960 | 1961 |
|------|------|------|------|------|------|------|------|------|------|------|
| 11.1 | 13.8 | 11.7 | 11.8 | 12.5 | 12.3 | 11.3 | 9.8 | 9.7 | 10.6 | 9.7 |

| 1962 | 1963 | 1964 | 1965 | 1966 | 1967 | 1968 | 1969 | 1970 | 1971 | 1972 |
|------|------|------|------|------|------|------|------|------|------|------|
| 12.7 | 9.6 | 9.3 | 11.2 | 10.7 | 9.4 | 9.3 | 9.9 | 8.7 | 8.2 | 9.7 |

The Crude Death Rate for England and Wales for 1972 was 12.1 per 1,000 population. The Area Comparability Factor is 1.13, and the Local Adjusted Rate 11.0.

I give below the commonest causes of death for the years 1968 to 1972. The figures are of comparative interest.

| | <u>1968</u> | <u>1969</u> | <u>1970</u> | <u>1971</u> | <u>1972</u> |
|--|-------------|-------------|-------------|-------------|-------------|
| 1) Cancer | 22 | 30 | 28 | 20 | 33 |
| 2) Disease of the heart and circulation | 60 | 46 | 46 | 46 | 59 |
| 3) Cerebrovascular disease | 19 | 20 | 28 | 17 | 19 |

Cancer of the lung and bronchus accounted for five deaths - four males and one female.

There were four deaths attributable to motor vehicle accidents this year.

Cancer Mortality Rate (all forms)
taken in triennial periods - per 1,000 population

| | | | | | |
|-------------|-------|-----|-------------|-------|-----|
| 1937 - 1939 | | 1.8 | 1955 - 1957 | | 1.7 |
| 1940 - 1942 | | 1.7 | 1958 - 1960 | | 1.5 |
| 1943 - 1945 | | 1.4 | 1961 - 1963 | | 1.7 |
| 1946 - 1948 | | 1.3 | 1964 - 1966 | | 1.9 |
| 1949 - 1951 | | 1.9 | 1967 - 1969 | | 1.6 |
| 1952 - 1954 | | 1.4 | 1970 - 1972 | | 1.7 |

Infant Deaths (under 1 year of age)

| | Males | Females | Total |
|--------------|-------|---------|-------|
| Legitimate | 1 | 3 | 4 |
| Illegitimate | - | - | - |
| Totals | 1 | 3 | 4 |

Infant Mortality Rate

17.0 per 1,000 live births

17.0 per 1,000 live births - England and Wales

| | | | | | | | | |
|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|
| 1946 -48 | 1949 -51 | 1952 -54 | 1955 -57 | 1958 -60 | 1961 -63 | 1964 -66 | 1967 -69 | 1970 -72 |
| 29 | 29 | 24 | 24 | 17 | 22 | 16 | 19 | 17 |

Infant Deaths

There were four infant deaths under 1 year out of a total of 241 live births.

Still Births

| | Males | Females | Total |
|--------------|-------|---------|-------|
| Legitimate | 2 | - | 2 |
| Illegitimate | - | - | - |
| Totals | 2 | - | 2 |

The Still Birth Rate for Lutterworth Rural District is 8.0 per 1,000 births (live and still).

Still Birth Rate for England and Wales is 12.0 per 1,000 births (live and still.)

Natural Increase of Births over Deaths

| | | | | | | | | | | |
|------------|------------|------------|------------|------------|------------|------------|------------|------------|------------|-------------|
| 1951 70 | 1952 29 | 1953 58 | 1954 50 | 1955 16 | 1956 20 | 1957 42 | 1958 91 | 1959 73 | 1960 65 | 1961 100 |

NATIONAL ASSISTANCE ACT 1948

Section 47 - Removal to Suitable Premises of
Persons in Need of Care and Attention

Under this Section, the Medical Officer of Health, having obtained authority from the Council, can apply to a Court of Summary Jurisdiction for an Order for the removal to a suitable place of a person who is suffering from grave chronic disease, or being aged, infirm, or physically incapacitated, is living in insanitary conditions and is not receiving proper care and attention.

It was not necessary this year to take formal action under this Act.

REPORT

of the

CHIEF PUBLIC HEALTH INSPECTOR

for the

YEAR

1 9 7 2

Mr. Chairman, Ladies and Gentlemen,

I wish to submit a short report on the work of the Public Health Department for the year 1972.

HOUSING

During the year 90 houses were built by private enterprise and at the end of the year there were 203 houses in course of erection.

Two Council houses were completed during the year and 69 under construction at the end of the year.

HOUSING ACTS 1949 - 1959

The number of Improvement Grants approved were as follows:-

| | | |
|---------------|---|----|
| Discretionary | : | 30 |
| Standard | : | 9 |

SEWERAGE & SEWAGE DISPOSAL

North Eastern Area Scheme

The Consulting Engineers have prepared a scheme to provide a sewage disposal works at Arnesby to serve the villages of Arnesby, Shearsby, Peatling Magna, Peatling Parva and Bruntingthorpe. The sewage disposal works will be sited on land to the South of Arnesby and sewers will be laid to connect the villages of Arnesby and Shearsby. The estimated cost of the scheme is £165,000 and it is anticipated that work will commence in the early summer of 1973. The remaining three villages will be connected at a later date.

Claybrooke

The Consulting Engineers have a scheme in course of preparation for the extension of the sewage disposal works which serves the villages of Claybrooke Magna, Claybrooke Parva and Ullesthorpe. This is necessary because the existing works are overloaded and not capable of providing an effluent which will meet the Royal Commission standards.

Broughton Astley

A 30" diameter surface water sewer has been laid to relieve flooding and to serve the proposed development in the central area. The Consulting Engineers are preparing a scheme to duplicate the principle sewer from the village to the works. This is presently overloaded and surcharges from time to time. A scheme is also being prepared for a second extension to the sewage disposal works to cater for proposed additional housing development.

Willoughby Waterleys

The Consulting Engineers are preparing a scheme of sewerage for this village. It is anticipated that no sewage disposal works will be necessary and it is also anticipated that a pumping main will discharge in the network of sewers which drain to the Broughton Astley works.

Catthorpe

A scheme had been prepared and tenders received for sewerage and sewage disposal but this has been held in abeyance pending a decision on a planning application for the development of a new town in the vicinity.

COLLECTION & DISPOSAL OF HOUSE REFUSE

It is anticipated that the use of refuse sacks will be extended to the whole of the District as from April of next year. This system seems to be working very satisfactorily and has improved the service both as regards the frequency and hygiene of the collection.

Refuse is still being deposited at the Rugby Rural District Council tip at Willey.

CONVERSIONS

Six pail closets were converted to the water carriage system during the year.

MEAT INSPECTION

There are six licensed slaughterhouses in the District in regular use and these are all well maintained.;

The number of animals examined after slaughter were as follows:-

| | Cattle exclu- ding Cows | Cows | Calves | Sheep and Lambs | Pigs | Horses |
|--|----------------------------------|------|--------|-----------------------|------|--------|
| Number killed | 435 | - | - | 1,097 | 612 | - |
| Number inspected | 435 | - | - | 1,097 | 612 | - |
| All Diseases except <u>Tuberculosis</u> | | | | | | |
| Whole carcases condemned | - | - | - | - | - | - |
| Carcases of which some part or organ was condemned | 22 | - | - | 55 | 15 | - |
| Percentage of number inspected affected with diseases other than tuberculosis | 5% | - | - | 4% | 2½% | - |

WATER

Four samples were taken from private supplies and three of these were found to be unsatisfactory. The owners were notified in each case and advice given where necessary.

RODENT CONTROL

Regular attention was given to tips, sewage works and outfalls and any infestation kept rigidly under control.

GENERAL

During the year regular inspections have been carried out as shown in the table below:-

| | Number of Inspections |
|---|-----------------------|
| Animal Keeping | 6 |
| Bakehouses | 1 |
| Dairies | 2 |
| Drainage Works | 212 |
| Dwellinghouses (all purposes) | 61 |
| Infectious Diseases Inquiries | 175 |
| Food Poisoning Inquiries | 5 |
| Food Premises | 34 |
| Offensive Trades | - |
| Refuse Collection and Disposal | 634 |
| Rodent Control (excluding Rodent Operator Visits) | 170 |
| Schools | 4 |
| Shops and Offices | 27 |
| Slaughterhouses & Meat Inspection | 382 |
| Smoke Control | 24 |
| Verminous and Dirty Premises | 4 |
| Caravans, etc. | 12 |
| Water Supplies | 14 |
| Factories and Workplaces | 7 |
| Other Inspections | 20 |
| TOTAL: | 1,794 |

I am,
Yours obediently,

H. W. SILLIFANT

Engineer, Surveyor & Chief Public Health Inspector.

Annual Report of the Medical Officer of Health
in respect of the Year 1972 for the
Rural District of Lutterworth in the County of Leicester

Prescribed Particulars on the Administration
of the Factories Act 1961

PART I OF THE ACT

1. INSPECTIONS for the purpose of provisions as to health (including inspections made by Public Health Inspectors).

| Premises (1) | Number on Register (2) | No. of | | |
